NBLL 2023 – FINAL4 – Goaltender Equipment Inspection

During the NBLL2023 Final4, after KR's agreement with the league, for the first time in the history of the NBLL, rules 5.7 (Goaltender Equipment) and 8.31 (Equipment Inspection) will be applied.

This is not a one-time event, the same procedure will be followed in the following years of the NBLL.

KR recommends that teams become thoroughly familiar with Rules 5.7 and 8.31, as the detection of illegal goaltender equipment has major implications:

- If illegal equipment is detected before the game = until the equipment complies with the rules, it is not possible to start the game with it.
- If illegal equipment is detected during or after the game = the goalkeeper will receive a minor penalty and game misconduct. (Here, be careful! according to the Control and Disciplinary Rules of the ČSML, there is an automatic suspension for next one game for a game misconduct)

Below you will find more detailed information on the course of measurements within Final4.

1. Reference measures obtained during the basic part of NBLL will be used for measurement.
 - 1.1. Teams/goalkeepers who did not attend the voluntary measurement offered (each team had at least one opportunity) must now report to the referees' dressing room 60-45 minutes before the first match to take the reference measurement, without equipment.
 - 1.2. Reference measures are available for the following (point a. applies to all others):
 - i. LC Custodes: Josef Slavík
 - ii. SKL Jižní Město: Martin Bartuška, Matěj Zelinka
 - iii. Lakros Zbraslav: Philip Hladký, Viktor Bláha
 - 1.3. KR also offers the option of updating the reference measures. In such a case it is necessary to send a request to csml.kr@lacrosse.cz before 8.11.2023 23:59. You will then receive instructions. Later applications will not be considered.
2. KR recommends and offers the possibility of an unofficial measurement, 60-30 minutes before the first gate, i.e. only on Friday 10.11.2023. In this case, look for the referee at the venue and ask for such a measurement.
It is possible that due to capacity / time reasons this will not be complied with immediately and it will be necessary to wait.
3. Official measurement
 - 3.1. Friday 10.11.2023: The measurement will take place in the referees' dressing room 15 minutes before the start of the game.
 - 3.2. Saturday 11.11.2023: For program reasons, the measurement must be finished no later than 15 minutes before the start of the game. For this reason, the measurement will take place 30 minutes before the start of the game.
4. KR draws attention to the possibility of a random check according to rule 8.31.1.

In case of anything, contact csml.kr@lacrosse.cz.
